Patna Women's College and the Bihar State Biodiversity Board sign an MoU to promote joint research, student training, faculty development and environmental awareness across Bihar

Patna Women's College and the Bihar State Biodiversity Board have signed a memorandum of understanding (MoU) to expand student and faculty engagement in biodiversity conservation through joint research, training and environmental awareness initiatives.

Signed at the board's office in Patna, the agreement establishes a framework for academic collaboration, capacity-building activities and public outreach focused on biodiversity and environmental protection.

MoU To Expand Research And Academic Collaboration

The partnership aims to provide students and teachers with opportunities to participate in research and practical learning related to biodiversity conservation. The two institutions will collaborate on academic projects, research activities and development initiatives focused on environmental protection.

The collaboration is also expected to connect classroom learning with environmental challenges affecting local communities and ecosystems, helping students develop a better understanding of biodiversity and

natural resource management.

Training To Build Student And Faculty Skills

A key objective of the agreement is to strengthen the knowledge and skills of students and faculty members through training and capacity-building programmes.

The proposed activities will encourage participants to engage with environmental research and conservation practices beyond their regular academic coursework. Faculty members may also gain opportunities to participate in collaborative research and professional development initiatives.

Joint Initiatives To Promote Environmental Awareness

The MoU also focuses on public awareness and community participation in biodiversity conservation. The institutions plan to organise joint activities to highlight the importance of protecting plants, animals and local ecosystems.

Students and teachers are expected to contribute to these initiatives, strengthening the connection between higher education, environmental responsibility and community engagement.

Officials Attend MoU Signing

The agreement was signed by Dr Sister Maria Tanisha, Principal of Patna Women's College, and Amit Kumar, Secretary of the Bihar State Biodiversity Board.

Bharat Jyoti, Chairperson of the board, and Mihir Kumar Jha, Deputy Director, attended the event. The college was represented by Alok John, Dean of National, International Collaborations and Consultancy Services (NICCS), and Dr Sumeet Ranjan, Head of the Department of Zoology.

The institutions have not announced a timeline, funding allocation or specific research projects under the agreement. The implementation of planned activities will determine the extent of opportunities available to students and faculty members.
